

Centrally located in the Lehigh Valley, the Animal Therapy Center is a fast growing and progressive *stand-alone referral* facility offering an array of sophisticated equipment including; 2 underwater treadmills, resistance pool, class 4 laser, electrical stimulation, therapeutic ultrasound, thermal imaging and a large gym with various exercise equipment. We offer a variety of rehabilitation services including individualized assessments, client education, assistive devices, therapeutic exercise, and hydrotherapy. Our work culture is team-oriented, friendly and inviting, with an emphasis on patient care and client communication. The hospital is well-staffed with an excellent clientele and referral base.

The Animal Therapy Center seeks to add a Part-time or Full Time LVT/RVT/CVT, with a minimum of 3 years' experience in the veterinary industry. (CCRP or CCRA a plus but not required) For full-time candidates, the ATC offers excellent Fringe benefit packages, with paid CE, health benefits and paid time off. Onsite training will be provided, and for non-CCRP/CCRA candidates, tuition reimbursement is also provided.

Candidates will work closely and independently with our onsite certified DVM and a team of 4 other rehabilitation therapists and 12 assistants. Candidates must possess strong interpersonal and organizational skills with a strong desire to learn and work as a team. Some Saturdays and evenings may be required. Applicants with flexible schedules will take priority. Salary is competitive and commensurate with experience.

Job Qualifications:

Education:

High school diploma or equivalent

Some college or college equivalent trade school required

CVT, LVT, or RVT

CCRP, CCRT, CCRA preferred

Experience:

Minimum 3 years animal experience

Job Duties:

1. CVT's are responsible for properly using all rehab equipment, modalities and techniques.
2. CVT's must correctly understand how to create, implement, and follow-through with Home Exercise Programs for clients.
3. CVT's are responsible for keeping accurate and complete rehab therapy records for all patients.
4. CVT's will be responsible for helping to maintain the facility and its equipment.
5. CVT's are expected to complete all therapies in a timely and efficient manner as dictated by the scheduling and charging system, and communicate all client concerns and issues promptly to the medical director.

6. CVT's are expected to communicate any and all changes in a patient's; medicine, supplements or behavior to the medical director.
7. CVT's are expected to be versed in diet, nutraceuticals and assistive devices used in rehabilitation medicine.
8. Additional job duties may include: client call backs, fill prescriptions; communicate and prepare updates for primary care veterinarians.
